

# PROVEN PROCESS

## WHAT YOU CAN EXPECT

### 1. Discovery & Consultation

We start by learning about your landscape, goals, and site conditions. You'll receive a brief call or visit from Aaron (The Tree Daddy himself) to understand your vision and walk your property if needed.

### 2. Tree, Landscape and or Turf Grass Care Choices

We provide you with a curated list of 5 tree species that thrive in your area. Each option includes benefits, mature size, and seasonal interest so you can make a confident choice. We can also discuss landscaping options; turf grass needs as well.

### 3. Proposal & Scheduling

After you choose your tree, landscape, turf options want/needs we send you a clear, itemized proposal with your selected tree, plants and turf grass applications, planting date, and optional aftercare services. A 50% deposit confirms your spot on our calendar.

### 4. Delivery & Professional Planting

On planting day, we deliver your tree, and/or plants and install it following industry standards (depth, root flare, soil health), and mulch the base. We leave your yard tidy and your plants ready to not only survive, but thrive.

### 5. Aftercare Plan (Optional)

Healthy trees need follow-up care. We offer seasonal check-ins and as-needed services like watering, fertilizing, and pruning. You only pay per visit—no contracts or hidden fees.

### 6. When it snows, we've got your back.

Our reliable snow removal services ensure your property stays safe and accessible during the toughest Nebraska winters. We show up early, work efficiently, and treat your space like our own.
